PERFORMANCE FISHING LURES

Insist on Salmo

THE SALMO DIFFERENCE

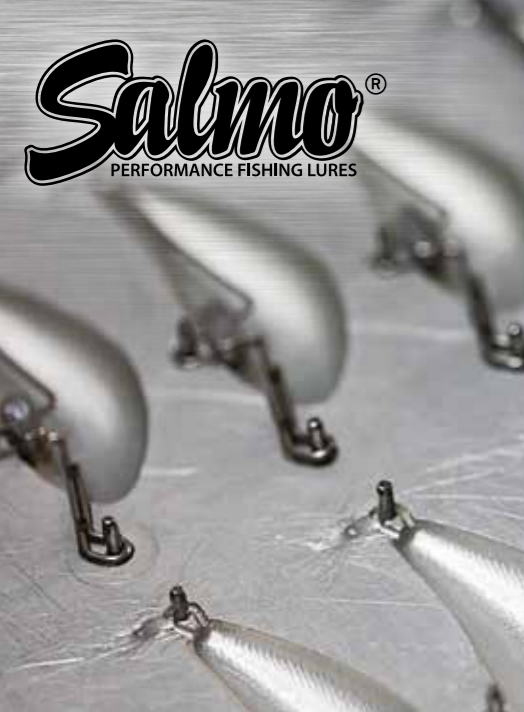

Manufactured in Poland to the very highest standards, you only have to fish with a SALMO lure once to be convinced of how special they are.

The powerful combination of experienced fish biologist designers, and some of the most demanding field testers in the world, results in a range of lures that catch when others fail.

Although each Salmo lure has been designed to meet specific objectives, the unquestionable effectiveness and attraction enables many of the lures to be used for a wide variety of predators, using many different fishing techniques.

If you want the best results... insist on SALMO.

MANUFACTURE

Each and every SALMO lure is exclusively manufactured in our own Polish factory. This enables us to strictly control the quality of each individual lure.

To guarantee our lures meet the high expectations of anglers who have come to trust the quality of Salmo, every lure is individually tank tested to ensure it runs correctly through the water.

We are so confident that every Salmo lure will function perfectly that we will replace any lure that does not perform correctly.

	Long Cast (LC)		3D EYE
	Salmo Infinity Cast System (SICS)		Fluorescent
	Rattle		Luminescence – Glow in the Dark (GD)
	'Thru-Wire' Construction		Metallic
	Ultrasonic Body Welding (UBW)		True Image Technology (TIT)
	Salmo High Impact Plastic (HIP)		Holographic Feature Technology (HFT)
	Salmo High Density Space-age Foam (HDSF)		UV Paint
	Polycarbonate, unbreakable lip construction		Ultra Violet Finish – UV Blast!

BULLHEAD

FLOATING / SINKING

The secret of the BULLHEAD family is the perfect composition of form and content – shape, color and unbelievable action in the water.

In our opinion Salmo BULLHEAD is the best sculpted imitation available on the market. Although designed originally for stream brown trout, it has turned out to be effective for all predators in both large rivers and lakes too.

Without doubt this is a lure the perch enthusiast is not going to be without!

PERFORMANCE FISHING LURES

MINNOW

FLOATING / SINKING

Despite the fact that this is one of the oldest lures in the Salmo family, a lot of anglers are still mesmerized by this classic lure.

It is characterized by fairly narrow and high frequency action and is a universal lure that can be fished in many ways to suit your preference. Ideal for catching all predatory fish, in all kinds of habitats, the MINNOW is available in floating, sinking and also a Super Deep Runner model for trolling.

HRM - Holo Real Minnow

SPARKY SHAD

SINKING

SPARKY SHAD has an unusual side profile and a special weight distribution to create a unique action unmatched in any other mass produced wobbler.

During slow retrieve speeds, the SPARKY SHAD action is a combination of side wiggles and wide tail swings. With higher speeds the range of the swings decreases exponentially but the frequency increases up to a point that is unmatched by any other lure of a similar kind. Features a moving internal weight long cast system which also stabilises the lure when stationary.

BHT - Brown Holographic Trout

SS4	Sinking	4	3	Two - No.12	0,18 / 0,10	1,0/1,5

FRISKY

SHALLOW / DEEP RUNNER

This amazing lure is the result of a long development and testing process to create a lure with the ideal combination of hydro and aerodynamic properties.

FRISKY has a fantastic action with almost any type of retrieve and there are no issues when casting, which is often a problem with jointed crankbaits. Both versions of FRISKY are also suitable for both fast and slow trolling.

HORNET FLOATING

From the moment it was introduced to the Salmo family it has been the absolute best seller.

The perfect combination of construction and balance creates an incredible action that fish find it irresistible. If you are looking for a lure that can catch anything that swims in the water then HORNET is your best choice! The floating model is the ultimate lure for fishing shallow venues and around structure, with many takes coming on the pause when the lure rising.

HORNET SINKING

From the moment it was introduced to the Salmo family it has been the absolute best seller.

The perfect combination of construction and balance creates an incredible action that fish find it irresistible. If you are looking for a lure that can catch anything that swims in the water then HORNET is your best choice! The sinking version of this classic lure is perfect for deeper water marks, when you need to get the lure down to feeding fish.

RATTLIN' HORNET

FLOATING

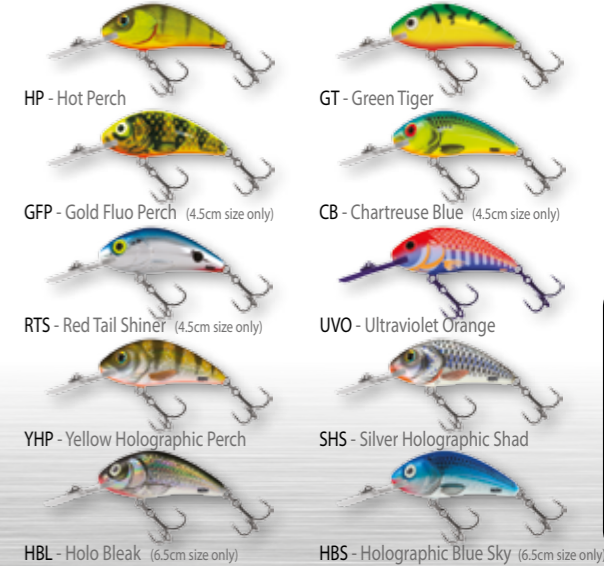

We have taken what many consider to be one of the best crankbaits in the world and improved it by adding a rattle!

You can expect the same effectiveness and a strong action of the original HORNET but with the addition of fish attracting sound. The built in rattle and long cast SICS system are attributes that make this crankbait a universal, multi-purpose weapon that can be used to catch all predatory fish.

HP - Hot Perch

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
H4.5	Floating	4,5	6	Two - No.8	0,22 / 0,12	1,8 / 3,4
H6.5	Floating	6,5	20	Two - No.2	0,25 / 0,16	2,5 / 5,0

HORNET 9

FLOATING

Created in cooperation with some of the best catfish hunters in Europe, the HORNET 9 has quickly proved to be a worthy addition to the Salmo family!

Like it should be for a lure designed for monsters, HORNET 9 can take on even the largest of the catfish. This lure is perfect for both casting and trolling. The strong vibrations on the rod tip make it very easy to observe and control this crankbait even if it is being trolled 50m behind the boat. Pike are another species that will find this great lure hard to resist!

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
H9	Floating	9	36	Two - No.4	0,35 / 0,23	3,5 / 5,0

TINY

FLOATING / SINKING

This is a lure for special tasks and situations. It can be lethal in warm weather during insect hatches when fish are feeding near the surface.

The aggressive action and excellent aerodynamics make this lure one of a kind. Without doubt this is the ultimate lure for the ultralight lure enthusiast. Perfect for fishing small overgrown rivers, especially when stalking, or for casting to feeding fish on still waters, this small lure packs a big punch!

HC - Hot Cockchafer

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
IT3F	Floating	3	2	Two - No.12	0,14 / 0,08	0,3
IT3S	Sinking	3	2,5	Two - No.12	0,14 / 0,08	0,3

CC - Cockchafer

LB - Ladybird

HBS - Holographic Blue Sky

HGS - Holographic Gray Shiner

HC - Hot Cockchafer

LIL' BUG FLOATING

The Salmo LIL' BUG is a perfect example of tradition and modern technology, all combined in one small lure.

This surface crankbait is perfect for ultra-light fishing enthusiasts and has been described as the best chub lure available. Fitted with a long-cast design - Salmo Infinity Cast System (SICS) - LIL' BUG is a great lure for casting into tight spots close to cover, or for drifting with the current until the correct position is reached before retrieving.

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
BG3	Floating	3	4,3	One - No.10	0,18 / 0,10	Surface

GBG - Green Bug

LB - Ladybird

MGB - May Bug

DBE - Dunk Beetle

THRILL SINKING

The Salmo THRILL is a unique crankbait designed specifically for hunting asp and is the ideal imitation of a bleak – the asp’s favorite prey.

Both the shape and high frequency, flashy action of this lure make it hard to tell the difference from a live fish. The increased weight and unique aerodynamics now put previously unreachable fish within your casting range. THRILL also works well for other predators feeding on small prey fish.

OB - Olive Bleak

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
TH5	Sinking	5	6.5	Two - No.8	0,18 / 0,10	Variable
TH7	Sinking	7	13	Two - No.5	0,20 / 0,10	Variable

RBL - Real Bleak

SFF - Silver Flashy Fish

HBL - Holo Bleak

BF - Blue Fingerlig

OB - Olive Bleak

ROVER FLOATING

The Salmo ROVER was designed in cooperation with the best bass fishermen in North America.

It is a unique popper/stickbait hybrid that also possesses additional characteristics. Construction and balance make fishing with this lure fun and easy. It is also worth mentioning the incredible aerodynamic properties of the ROVER which enable you to cast to surface feeding fishing without them knowing you are there.

PBO - Pearl Black Orange

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
RV7	Floating	7	11	Two - No.5	0,22 / 0,12	Surface

CBK - Chrome Black

HP - Hot Perch

PBO - Pearl Black Orange

EXECUTOR

SHALLOW RUNNER

The Salmo EXECUTOR is a treat for the traditionalist lure angler.

The proven shape and flawless tail-side action are two traits that should convince anyone to try the EXECUTOR. The Shallow Runner can be fished close to the surface when used with a pulse type retrieve, or trolled at various speeds to cover the first few metres of depth where predators are often waiting to strike.

With four different sizes available, this range of lures covers all species, from perch to pike!

RR -Real Roach

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
EX5SR	Floating	5	5	Two - No.7	0,20 / 0,12	0,6 / 1,2

RD - Real Dace

RHP - Real Hot Perch

RPH - Real Perch

T - Trout (5, 7 & 9cm size only)

RR -Real Roach (12cm size only)

WHACKY FLOATING

WHACKY is a unique twitchbait designed in cooperation with the trolling masters from Finland.

Because of the special weight distribution and original shape of the diving blade, this lure has a truly unmatched and irregular action which varies depending on the speed at which it is working.

Despite the fact that WHACKY was designed mainly for trolling, it has also proved to be effective when cast and retrieved in a traditional crankbait manner.

SIB - Silver Blue

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
WY9	Floating	9	5,5	Three - No. 8	0,20 / 0,10	0,7 / 2,5

BMB - Black Metallic Bleak

GT - Green Tiger

SCS - Silver Chartreuse Shad

SIB - Silver Blue

PERCH

FLOATING / SHALLOW R
DEEP R / SUPER DEEP R

The Salmo PERCH is a typical crankbait with a strong, aggressive action.

It is another Salmo classic that has lived to see its many imitations made by our competitors. This fact itself is proof of this lure's unbelievable effectiveness. Most anglers agree that this is still the best perch imitation - a fish common in all European waters.

This lure is available in many variants, all of which perfectly cover the many situations lure anglers will face.

Floating. HP - Hot Perch

Super Deep Runner. HOP - Holographic Perch

PIKE

FLOATING / JOINTED

It is common knowledge that pike are vicious cannibals and for many years lure manufacturers and fishermen alike have exploited this fact without mercy.

Our Salmo PIKE crankbait is unmatched by any other lure, both in terms of a perfect pike colour pattern and a specific action that has proved to be too much to handle for many toothy trophies that have fallen victim to its charm. Available in solid and jointed options.

HPE - Hot Pike

HPE - Hot Pike

RPE - Real Pike

FREEDIVER

SUPER DEEP RUNNER

FREEDIVER is a floating, deep diving crankbait with some unique qualities.

This is a modern lure designed for extreme trolling that can reach depths that are unattainable for other crankbaits. FREEDIVER also has a built in rattle with two noise chambers which generate different frequencies for increased attraction.

The main purpose for this lure was to catch zander from deep waters, but FREEDIVER also appeals to many other predators that feed in the depths.

PERFORMANCE FISHING LURES

SKINNER FLOATING

Without a doubt this is one of the best twitchbaits in the world.

There are not too many wobblers that can be used as a surface lure, jerkbait and twitchbait. Because of that ability SKINNER is a truly unique lure. The original shape and unbelievably aggressive action are two traits that will make any predator angler drool over this lure. After only a few casts you will be amazed by what SKINNER can do. It does not dive too deep, but large predators do not seem to mind, they come right up from a few metres down to crush it!

COLOURS

SWEEPER

SINKING

Salmo SWEEPER belongs to a whole new generation of gliders. It glides further to the sides than typical lures of this kind and requires less effort from the angler.

SWEEPER's wide glides and 180 degree turns also cause this lure to 'shimmy' its sides, a little quirk that drives predators into a frenzy. The fantastic weak or wounded prey fish action is possible due to the unique shape and perfect balance of the lure's body.

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running depth Spinning / Trolling (m)
SE10	Sinking	10	19	No.4	0,28 / 0,15	0,5

RPE - Real Pike

SCS - Silver Chartreuse Shad

HP - Hot Perch

FATSO

FLOATING / SINKING

FATSO is a unique hybrid of wobbler and jerkbait that opens an entire new horizon for predator anglers.

At the first glance, the lazy action of this lure will remind you of a large spoon. However any skilled angler that has tried using it as a twitchbait, jerkbait, wobbler or even trolling it behind a boat, will confirm what an amazing and lethal weapon it can be.

SLIDER

FLOATING / SINKING

This first European glider is a legend. It had received many awards and rave reviews from fishermen all over the world.

We can honestly say that SLIDER began a new era among artificial lures. Both the unique shape (it's the most copied by other lure producers) and fantastic, one-of-a-kind action, casts a spell over any predatory fish. SLIDER'S main strength is that there is no wrong way to fish it. All retrieve techniques have proved to be effective!
