PERFORMANCE FISHING LURES

THE SALMO DIFFERENCE

Manufactured in Poland to the very highest standards, you only have to fish with a SALMO lure once to be convinced of how special they are.

The powerful combination of experienced fish biologist designers, and some of the most demanding field testers in the world, results in a range of lures that catch when others fail.

Although each SALMO lure has been designed to meet specific objectives, the unquestionable effectiveness and attraction enables many of the lures to be used for a wide variety of predators, using many different fishing techniques.

If you want the best results... insist on SALMO.

MANUFACTURE

Each and every SALMO lure is exclusively manufactured in our own Polish factory. This enables us to strictly control the quality of each individual lure.

To guarantee our lures meet the high expectations of anglers who have come to trust the quality of SALMO, every lure is individually tank tested to ensure it runs correctly through the water.

We are so confident that every SALMO lure will function perfectly that we will replace any lure that does not perform correctly.

SQUAREBILL FLOATING

When fishing amongst tight cover and structure, you need a lure that is not only extremely durable, but also resistant to hanging up in the snags. The new Salmo SQUAREBILL has been developed for exactly this purpose by some of the top US bass anglers.

The Salmo SQUAREBILL is available in both 5cm and 6cm sizes, making it perfect for a multitude of freshwater predators.

FREEDIVER SUPER DEEP RUNNER

When we launched our FREEDIVER 12cm a few years back, anglers were simply stunned by how deep this lure could be worked. At its deepest, this lure has been recorded at depths to a staggering 14m when trolled!

New for 2019 is the FREEDIVER 9cm. Do not let the size of this lure fool you, its deep diving capabilities are still seriously impressive, with it being able to reach depths down to 9m.

SPARKY SHAD SINKING

SPARKY SHAD has an unusual side profile and a special weight distribution to create a unique action unmatched in any other mass produced wobbler.

During slow retrieve speeds, the SPARKY SHAD action is a combination of side wiggles and wide tail swings. With higher speeds the range of the swings decreases exponentially but the frequency increases up to a point that is unmatched by any other lure of a similar kind. Features a moving internal weight long cast system which also stabilises the lure when stationary.

HORNET 9 FLOATING

Created in cooperation with some of the best catfish hunters in Europe, the HORNET 9 has quickly proved to be a worthy addition to the Salmo family!

Like it should be for a lure designed for monsters, HORNET 9 can take on even the largest of the catfish. This lure is perfect for both casting and trolling. The strong vibrations on the rod tip make it very easy to observe and control this crankbait even if it is being trolled 50m behind the boat.

Pike are another species that will find this great lure hard to resist!

PERFORMANCE FISHING LURES

SWEEPER SINKING

Salmo SWEEPER belongs to a whole new generation of gliders. It glides further to the sides than typical lures of this kind and requires less effort from the angler.

SWEEPER's wide glides and 180 degree turns also cause this lure to 'shimmy' its sides, a little quirk that drives predators into a frenzy. The fantastic weak or wounded prey fish action is possible due to the unique shape and perfect balance of the lure's body.

FATSO

FLOATING / SINKING

FATSO is a unique hybrid of wobbler and jerkbait that opens an entire new horizon for predator anglers.

At first glance, the lazy action of this lure will remind you of a large spoon. However any skilled angler that has tried using it as a twitchbait, jerkbait, wobbler or even trolling it behind a boat, will confirm what an amazing and lethal weapon it can be.

Available in a 10cm size, as well as a much larger 14cm size, the larger being a model that has been responsible for some huge pike captures over the years!

RHP - Real Hot Perch

RPH - Real Perch

RDE - Real Dace

EMP - Emerald Perch

GRT - Green Tiger

RER - Real Roach

Model	Version	Length (cm)	Weight (g)	Hooks	Main Line Mono / Braid (mm)	Running Depth Spinning / Trolling (m)

CHUBBY DARTER SINKING

Originally designed for ice fishing, our award-winning **CHUBBY DARTER** has proved to be an incredible addition to any predator anglers tackle box.

With its superb action, this lure is just at home being fished vertical as it is being cast out and worked in open water marks.

Available in 3cm and 4cm sizes, the **CHUBBY DARTER** is a specimen perch and zander magnet, one that has carried on producing the goods ever since its launch back in 2002!
